

West Bengal Chief Minister Mamata Banerjee is trying her hand on a traditional drum at a public distribution programme at Burdwan town on Tuesday.

Mamata Banerjee hits back, accuses PM Modi of turning blind eye to corruption charges under double engine govts

MI News Service, Burdwan / Kolkata : West Bengal Chief minister Mamata Banerjee on Tuesday hit back at Prime Minister Narendra Modi over his recent remarks that labelled the TMC as "thieves," and said that he (the PM) should not disrespect her chair and the state.

Speaking at a government programme in Burdwan town, organised to distribute social welfare schemes' benefits, this afternoon, Mamata Banerjee described the Prime minister's recent comments as an "insult" not only to her party, but to the people of West Bengal as a whole.

She accused the Centre of withholding central funds, which she alleged has imposed a "heavy burden"

on the state exchequer."The Prime Minister should respect my chair as I respect his. I never expected him to call the people of West Bengal "thieves," the Chief Minister said. "In truth, he has turned a blind eye to the performances of the so-called 'double-engine' BJP governments of Uttar Pradesh, Maharashtra and Bihar, where corruption is at its highest," the Chief minister claimed. Incidentally, PM Modi at a recent public meeting at Dum Dum in Kolkata on August 22 alleged that corruption, crime and the Trinamool Congress are synonymous. He alleged that "funds sent by the Union government to the State do not reach to the common people, but filled the pockets of TMC cadres".

Alleging that the Prime minister travels to West Bengal like a migratory bird every time when an election was knocking at the door, Chief minister Mamata Banerjee asserted that the state administration had satisfactorily replied to all queries from the Union government about the utilisation of Central funds for Welfare schemes. " We have answered all your queries, yet you stop all funds disbursement and called West Bengal a thief. They had send as many as 186 Central teams to West Bengal to probe corruption charges, but found nothing. How can a student accept getting zero mark after answering all questions. We will not tolerate this insult anymore", she asserted.

Mamata Banerjee peeved over discrepancies in preparation of SC-ST OBC list

MI News Service, Kolkata : West Bengal Chief Minister Mamata Banerjee has stated that she was peeved over allegations about "discrepancies" in preparing the list of SC/ST and OBC beneficiaries, and asked the state administration to be alert to avert any such irregularities.

Mamata Banerjee, who chaired a meeting of the Tribal Advisory Council at state secretariat 'Nabanna' on Monday evening said such irregularities should be avoided at any cost, according to a source.

When a senior minister handed over a letter to the CM claiming there had been stray cases of non-SC/ST/OBC community members availing of the quota and benefits to the backward castes, she gave it to Chief Secretary Manoj Pant and instructed him to look into the details and take immediate remedial measures. "Why should there be errors in the OBC certificates? Who is liable for that? Our government and our party

West Bengal Chief Minister Mamata Banerjee is addressing at a public distribution programme in Burdwan town on Tuesday.

is committed to ensuring the welfare of the backward communities and tribals economically and for their education. Any deviation from this principle is inexcusable," she added. The Chief minister also voiced her strong reservations over Santhal students being given question papers in their languages in the recently held D.El.Ed

(diploma in elementary education) exams in Jhargram and reminded that her government had already given official recognition to Alchiki, the script to write Santhali language. She asked the four ministers from the region including Birbaha Hansda to remain fully alert and vigilant about any bid to take away the lands of tribals and other indigenous communities where they had been living for ages. Mamata Banerjee further asked the administration to ensure that plantation workers get their 'patta' (land deed) in north Bengal at the earliest. BJP MP and tribal council member Khagen Murmu, however, did not attend the meeting, citing lack of communication on the part of the state government about the agenda. However, the Chief minister said she wanted all the stakeholders to participate in the discussion, rising above their political differences, the source said. "But, if anyone stays away, that is up to them," she remarked.

India has power of democracy and advantage of demography, says PM Modi

MI News Service, Ahmedabad : Unlike many other countries in the world, India has the power of democracy, the advantage of demography and a very large pool of skilled workforce, Prime Minister Narendra Modi said on Tuesday.

"This creates a win-win situation for every partner of ours," Modi said after flagging off Maruti Suzuki's first electric vehicle, the e-Vitara, at the brand's Hansalpur facility in Gujarat. The made-in-India e-Vitara will be exported to over 100 countries, including Japan.

"Today, Suzuki Japan is manufacturing in India, and the cars made here are being exported back to Japan. This is not only a symbol of the strength of the relationship between India and Japan, but also re-

flects the global confidence in India," Modi said.

Modi said swadeshi should be every Indian's life mantra. "My definition of swadeshi is where money is invested by anybody but work is done by Indians," he added.

"Today, the entire world is looking towards India. At such a time, no state should lag behind. Every state should take advantage of this opportunity," he said.

"Investors coming to the country should be so confused that they think: should I go to this state or that state," PM Modi said. "I invite all states to compete in reforms, pro-development policies and in good governance," he added. Acknowledging the ongoing shortage of rare earth materials faced by India's automo-

bile industry, Prime Minister said that the government was working towards building national capacity in critical minerals and would soon launch exploration missions.

"I'm aware of the rare earth materials shortage, and we are trying to address it with the critical minerals mission. There will be exploration at more than 1,200 sites for critical minerals," PM Modi said. The PM's comments on the rare earth materials shortage come as automakers are feeling the heat of Chinese curbs on the crucial minerals. Royal Enfield has tried out a temporary hack for its gear position sensor as the global shortages bite, exposing vulnerabilities in vehicle supply chains.

Mother Teresa's 115th Birth Anniversary celebrated through mass prayers

MI News Service, Kolkata : The Kolkata headquartered Missionaries of Charity celebrated the 115th birth anniversary of its founder Mother Teresa on Tuesday with solemn prayers and candlelight offerings at the order's main hall in the Mother House in this Eastern Metropolis.

Archbishop of Calcutta, Thomas D'Souza, led the mass prayers and paid tribute to the Nobel laureate, emphasizing her lifelong message of protecting and cherishing life. "Mother Teresa stood for the promotion of life. Any act of violence or injury that destroys life is unacceptable. Life is sacred and precious, and we must safeguard it at every

stage," he said.

The Missionaries of Charity, founded by Mother Teresa in 1950, continue her legacy of serving "the poorest of the poor" irrespective of caste, creed, religion or background. The religious order provides shelter and care for orphans, abandoned children, the elderly, and the differently abled, while also engaging in global relief efforts during natural disasters and humanitarian crises.

Born as Agnes Gonxha Bojaxhiu on August 26, 1910, in Albania, Mother Teresa came to Kolkata in 1929 and dedicated her life to the marginalized. The Vatican formally recognized the Missionaries

of Charity in 1950, and under her guidance, the order expanded across Asia, Africa, and Latin America.

Mother Teresa received the Nobel Peace Prize in 1979, directing the prize money towards the poor in India. She was canonized as Saint Teresa of Kolkata by Pope Francis in 2016 and was later declared Patron Saint of the Archdiocese of Kolkata.

Passing away in 1997, Mother Teresa was accorded a state funeral by the Government of India, a rare honour that underlined the nation's respect for her unparalleled humanitarian service.

On her 115th birth anniversary, members of the

Missionaries of Charity and devotees reaffirmed their commitment to her mission—serving humanity with compassion, dignity, and joy.

Mother Teresa is known for her unwavering efforts to improve society and for having served as an inspiration to many individuals worldwide. Mother Teresa remains a symbol of compassion and humanitarianism. Her birth anniversary, August 26, provides an opportunity to commemorate her extraordinary life and lasting impact. Her journey to becoming a saint venerated throughout the world is evidence of her unshakable dedication and selfless service.

US issues draft notice to impose additional 25% tariff on India

MI News Service, New Delhi / Washington (DC) : As expected and announced by the US administration and President Donald Trump, the United States has issued a draft notice detailing plans to implement the additional 25 per cent tariff on Indian products with effect from August 27. The Department of Homeland Security, in the draft order published on Tuesday said the increased levies would hit Indian products that are “entered for consumption, or withdrawn from warehouse for consumption, on or after 12:01 am eastern daylight time on August 27, 2025”. On August 7, Trump announced doubling tariffs on Indian goods to 50 per cent for India's purchase of Russian crude oil, but gave a 21-day window to negotiate an agreement. The U.S. government is getting ready to implement the 25% additional tariffs

imposed on India by President Donald Trump, which are to come into effect on August 27. The Department of Homeland Security (DHS) on Tuesday uploaded a notification of the new tariffs that it said would be published in the official register on Wednesday.

“To effectuate the President’s Executive Order 14329 of August 6, 2025, which imposed a specified rate of duty on imports of articles that are products of India, the Secretary of Homeland Security has determined that appropriate action is needed to modify the Harmonized Tariff Schedule of the United States (HTSUS) as set out in the Annex to this notice,” the notice said. The August 6 Executive Order by President Trump imposed an additional 25% tariff on imports from India as a penalty for its import of oil from Russia. This 25% additional tariff would be over

and above the existing 25% tariff that Indian import have attracted since August 7, 2025.

These additional tariffs will not apply to imports of iron, steel, or aluminum products, passenger vehicles such as sedans, sport utility vehicles, crossover utility vehicles, minivans, and cargo vans, light trucks, or semi-finished copper and intensive copper derivative products, among others.

The United States was India's top export destination in 2024, with shipments worth USD 87.3 billion. Analysts at Nomura warn that 50% duties would be "akin to a trade embargo", devastating smaller firms with "lower value add and thinner margins". Elara Securities's Girima Kapoor said no Indian product can "stand any competitive edge" under such heavy import taxes.

10-yr child influencer with 19 k followers found hanging

MI News Service, South 24 Parganas: A pall of grief and shock has descended over Jalaberia No.2 area under Kulti police station after the sudden death of 10-year-old Pallab Naskar, a fourth grade student who was well-known in the locality and on social media. Pallab , who regularly created reels with his father and had amassed nearly 19,000 followers on Facebook, was found hanging in the kitchen of his home on Monday afternoon.

According to police and local sources, Pallab returned from school around noon and asked his mother for food. Shortly afterward, while his mother was away at a relative's house nearby, Pallab begun playing with his seven-year-old cousin. Moments later, the child discovered him hanging from a bamboo beam in the kitchen.

Alarmed cries brought family members rushing in, who found Pallab hanging lifeless. He was immediately rushed to Kulti Block Rural Hospital, where doctors declared him dead on arrival. A Child Celebrity Cut Short known his lively presence in videos, Pallab had become a familiar face in the locality and online. Resident described him as cheerful, mischievous and “always excited to shoot videos.” His sudden death has left the community stunned. “There was no sign of any tension at home. We cannot believe he could do something like this,” said one shocked neighbor. Police from Kultali station arrived at the scene and recovered the body. An unnatural death case has been registered, and the body has been sent for autopsy to determine the exact cause of death. Senior

police officers stated that no suicide note was found, and preliminary investigation has revealed no immediate evidence of foul play. However, they have not ruled out any angle, including the possibility that Pallab may have been attempting an act without fully understanding its consequences. The incident has sparked debate over the pressures of early social media exposure. While Pallab's videos brought him recognition, his sudden and unexplained death raises questions about the hidden vulnerabilities of children navigating fame at such a tender age. The Kultali tragedy remains shrouded in mystery, with grieving family members and stunned neighbors searching for answers to a death that appears as unfathomable as it is heart-breaking.

Dreams collide, life lost: Nandigram ISRO- talented ends life over career clash

MI News Service, Nandigram: A promising young life has been cut short in a deeply tragic turn of events. Deepshikha Maiti (19), a meritorious student from the Khodambari area of Nandigram, ended her life by hanging on Monday night, just hours before she was to begin her journey toward a medical career that her parents had long envisioned for her.

According to family members, Deepshikha was exceptionally talented since childhood, consistently excelling in academics. She had recently secured an opportunity to work with ISRO in space research — a feat that testified to her brilliance. But while her own aspirations leaned toward research and a future

in scientific study, her parents wanted her to pursue medicine and become a doctor. That clash of dreams turned fatal. Though Deepshikha had cleared the highly competitive NEET examination and was scheduled to take admission at Bankura Medical College on Tuesday, she appeared unable to reconcile her ambitions with her family's expectations. A seat had been booked on a bus for her medical college journey. But instead of stepping into a new chapter of life, she chose the path of self-destruction. Her father, still in shock, recalled their last conversation: “I spoke to her yesterday. She wished me good night and went to sleep. She had expressed doubts earlier about what the future

Sabuj Sathi 11th Phase Inaugurated

MI News Service, Hooghly: The 11th phase of Sabuj Sathi scheme was officially inaugurated on Tuesday. Under this, 1500 bicycles were distributed to deserving students of different blocks, subdivisions and municipalities of the district. The district administration has set a target of distributing a total

of 64,169 bicycles under this scheme this year. The administration said that since the launch of this scheme, a total of 764,364 bicycles have been distributed in Hooghly district alone. The initiative of Sabuj Sathi scheme helps students in accessing education by providing a reliable mode of transportation.

CCTV dodged, train ticket plotted- Ishita's killer still missing

MI News Service, Krishnagar: What initially appeared to be a crime of passion is now being investigated as a chilling case of premeditated murder. Ishita, a first-year college student, was allegedly shot dead inside her Krishnagar home by classmate and lover Deshraj, the son of a BSF jawan. Police say Deshraj plotted the murder meticulously, identifying CCTV blind spots and choosing a time when Ishita was alone.

No footage captured him entering the house, but investigators believe he had previously conducted reconnaissance of the area. Despite his efforts to remain unseen, a photograph taken by a local resident placed him near the scene on the day of the murder. On August 24, a day before the crime, Deshraj told his father he was heading to Uttar Pradesh and even booked a confirmed train ticket on the Purbanchal Express. He informed his father around 3 p.m. that he had boarded the train and made one last call at 4:30 a.m. the next morning — after which his phone went silent. However, police say he never left town and instead murdered Ishita later that day. Deshraj has been missing since. Raids have been conducted, including at his Kachrapara home. Investigators suspect the train ticket was a planned alibi. Both families have defense backgrounds, making the betrayal more shocking. His father stated, “If my son is guilty, he should be punished like any citizen.”

Schoolboy crushed under lorry, villagers smash killer truck

MI News Service, West Medinipur: A routine journey to school nearly turned fatal for a Class IX student in Daspur on Monday morning, when a speeding lorry loaded with stone chips mowed him down on a narrow rural road. The horrific accident, which took place at Kolmijor Mannapara under Daspur police station limits, has once again exposed the menace of heavy goods vehicles plying through fragile village lanes despite repeated government directives.

The victim, identified as Rupam Mula, a resident of Chakkrishabati village, was cycling to his school, Brahmanbasan High School, when a truck carrying construction materials rammed into his bicycle. Rupam, along with his twisted cycle, was dragged under the lorry's wheels. Eyewitnesses said it was a miracle that the boy survived—three of his friends, who were walking nearby, rushed in and pulled him out from beneath the vehicle moments before disaster could strike. The truck driver and his assistant fled the scene immediately after the accident. The incident triggered massive outrage in the area. Local residents, particularly women, armed with sticks, attacked and vandalized the lorry, blaming reckless movement of such vehicles for endangering schoolchildren and villagers daily. Police from Daspur police station rushed to the spot to prevent escalation and restore order. Locals allege that despite repeated pleas, no action has been taken to stop the entry of heavy trucks into rural roads that are narrow, accident-prone, and unable to withstand the load. Chief Minister Mamata Banerjee herself had warned against such practices in the past, directing strict enforcement against heavy vehicles entering fragile village lanes. But the Daspur incident reflects a stark failure of enforcement on the ground. “This could have been another death on the road. How long must we live in fear of these killer trucks?” a resident angrily told reporters. Rupam, though severely shaken, miraculously escaped with minor injuries thanks to the quick action of his friends. However, the accident has reignited local anger and highlighted the administration's failure to curb the menace of heavy goods vehicles on village roads, an issue that continues to claim innocent lives across Bengal.

Bengal celebrates 164th Birth Anniv of Acharya PC Ray

MI News Service, Kolkata: Following its annual tradition, the Alumni Association of Acharyya Prafulla Chandra Ray Polytechnic, Jadavpur, Kolkata along with the Teachers, Staff members and Students, organized the celebration of the 164th Birth Anniversary and Memorial Lecture of eminent Bengali Scientist, Industrialist and Visionary Acharyya Prafulla Chandra Ray, after whom the Institution has been named.

The event included paying homage by garlanding the statue of APC Ray at the campus. It was followed by planting around 15 saplings around the campus in continuation of our commitment towards environmental sustainability. An academic symposium was also organized on the occasion, titled “Retrospection on the Life and Work of Acharyya Prafulla Chandra Ray”. Prof. Tanmaya Pathak, Former Professor and Head of the Department of Chemistry, IIT Kharagpur, was the Chief Guest at the occasion.

Roof collapse in Barast school halts exams

MI News Service, Barasat: A major tragedy was narrowly avoided at Rujipur Adarsh Abatanik Primary School in Hasnabad on Tuesday when a roof truss collapsed during examinations, nearly striking a teacher and leaving students in shock.

Witnesses said a large section of the truss came crashing down in the middle of an ongoing exam. Alarmed by the terrified screams of students, the teacher managed to move away just in time, escaping serious injury. The sight of debris falling inside the classroom sent panic rippling through the school. Parents, who had been waiting outside, rushed in and immediately pulled their children out. Exams were cancelled on the spot. The incident has exposed the alarming condition of the school building, which locals allege has been neglected for years. Smaller collapses have occurred earlier, but Tuesday's accident highlighted the imminent risk to both students and staff. Parents and residents expressed fury, demanding immediate reconstruction. “How can we send our children into a death trap? A bigger disaster could happen any day,” said one agitated guardian. Headmaster of the school admitted the parents' fears were justified. He revealed that he had repeatedly appealed in writing to higher authorities for repairs, but no action was taken. “This is the result of administrative indifference,” he remarked grimly. The incident has reignited debate over the crumbling condition of rural and semi-urban schools, where hundreds of children continue to study under dangerously dilapidated roofs.

Bengal

All Bengal Mid-Day Meal Workers Union supporters hold a protest over various demands during their 'March to Nabanna' in Kolkata on Tuesday.

Father strangles 3 month-old daughter

MI News Service, Siliguri: A chilling case of domestic violence and gender bias has come to light in Siliguri's Prakash Nagar, where a man allegedly strangled his three-and-a-half-month-old daughter simply because she was a girl. The accused, Rahul Mahato, was arrested on Sunday after his wife, Priyanka Kumari, and local residents handed him over to the police.

According to Priyanka, Rahul had been unhappy since the birth of their daughter and frequently threatened to kill her. On Sunday morning, she found the baby unconscious on the bed and rushed her to Siliguri District Hospital. Doctors pronounced the infant dead, prompting Priyanka to immediately accuse her husband of the crime. Neighbours backed her claims, saying Rahul regularly fought with his wife and repeatedly expressed his desire for a son instead of a daughter. “He would fight almost daily, saying he didn't want a girl. The threats were constant,” a neighbour said. Following the mother's alarm, Siliguri Metropolitan Police detained Rahul Mahato from the hospital premises. A case has been registered at Bhaktinagar police station, and the baby's body has been sent for post-mortem to determine the exact cause of death. The incident has triggered shock and

outrage in the local community, with residents condemning the act as a barbaric reminder of the deep-rooted gender prejudice still prevalent in parts of society. “It is unthinkable that a father could kill his own child just for being a girl. This is not just a crime, it is a shame for our society,” said one resident. Police have launched a joint investigation into the case. Further legal action, including additional charges, will be taken based on the findings of the autopsy report. The case underscores the urgent need to confront gender-based violence and challenge the societal attitudes that perpetuate such inhumane acts.

Night of horror in Malbazar: Dumper rams ambulance

MI News Service, Jalpaiguri: A pregnant woman sustained serious injuries after a high-speed dumper truck, allegedly carrying illegally extracted riverbed material (RBM), rammed into an ambulance in the Chalsa area of Malbazar subdivision late Monday night. The collision has triggered widespread public anger, with locals accusing the administration of turning a blind eye to rampant illegal sand smuggling and reckless driving.

The accident occurred near Sabari More, when the dumper, heavily loaded with sand and stones, struck the ambulance (operating under the state government's 102 toll-free emergency service) from behind. The impact was so severe that the rear of the ambulance was badly twisted. Eyewitnesses reported that the pregnant woman inside was seen writhing in pain and screaming for help. She was immediately rescued by locals and rushed to Malbazar Super Specialty Hospital. The dumper driver himself was trapped in the mangled cabin for a considerable time before being rescued. Police and administrative officials, including the IC of Meteli Police Station and the local BDO, rushed to the spot and managed to bring the situation under control. Traffic along the national highway remained disrupted for hours following the crash. Outraged locals questioned how such heavily loaded dumpers continue to ply freely at night despite official restrictions on illegal sand and stone extraction from riverbeds. Residents alleged that the dumper was engaged in illegal transportation of RBM, evading taxes and endangering lives. “Every

night these overloaded dumpers speed through, flouting traffic rules. The police know everything, yet no action is taken. Today an ambulance was hit — tomorrow it could be worse,” said one angry local resident. The accident has also reignited debate over unchecked dumper violence in the Dooars region. On the same day, three people were killed in a separate accident involving an overloaded pickup van in Nagraghata. In the Meteli block, villagers claim such accidents are becoming increasingly common due to negligent enforcement and the growing sand smuggling trade. Authorities have initiated an investigation into the Malbazar accident, but questions remain over enforcement lapses and the nexus behind the illegal RBM trade that has put countless lives at risk.

Partharpukur village tests positive for Kala-Azar, sand files detected

MI News Service, Bakura: After decades of dormancy Kala-Azar (Visceral Leishmaniasis) has re-emerged in Bakura district, triggering alarm in the health department. A young man from Partharpukur village in Onda block had tested positive, marking the first confirmed case in year. According to district health officials, the patient was admitted to Onda Super Specialty Hospital on August 2 with persistent high fever. He was later shifted to Bankura Sammilani Medical College, where blood tests confirmed Kala-Azar. After discharge on August 14, he was re-admitted to Onda hospital on August 20 for further treatment following the positive report. The case has prompted immediate intervention from the health department. A special medical team rushed to Partharpukur village, conducting random RK39 diagnostic tests among villagers. Fortunately, no additional infections have been detected so far. However, health workers have also identified the presence of sand flies — the known carrier of Kala-Azar — in the area, raising fresh concerns of a possible outbreak. Deputy Chief Health Officer Dr. Debabrata Das confirmed the situation: “A patient has been detected in

Partharpukur gram panchayat after many years. Kala-Azar is not completely eradicated in Bengal. Sporadic cases are still reported in districts like West Bardwan and Birbhum. We have begun extensive surveys in the area.” Once a hotspot of Kala-Azar, Bankura had been considered largely free of the disease for decades. The new case, however, has rekindled fears of its return, with authorities urging vigilance against vector-borne transmission. The health department has already begun door-to-door surveillance and awareness campaigns in Onda block to prevent any possible spread.

School gets locked, class I girl remains inside by mistake, rescued

MI News Service, Krishnanagar: The last school bell had rang, teachers locked the school and stepped up for homes. But when a class I student failed to return at her nearby home in time, her anxious mother rushed to the school. She learnt a crying sound of a babygirl was flowing from inside. The reality was clear. The little girl had been locked inside by mistake. She was rescued after reopening the school soon. The incident took place at Natunpara Primary School under Bhimpur police station in Nadia on last Saturday. The girl was traumatized. The teacher in charge cordially stated that that had happened by mistake. Subsequently, a complaint was lodged with concerned S.I. of Schools.

A Class I girl was accidentally locked inside her school in Nadia's Natunpara Primary School after closing hours on Saturday. She was rescued when her mother, searching for her, heard the child crying from inside. The incident sparked anger among guardians, who alleged that stray dogs often loiter inside the school premises but no action is ever taken. They also claimed that the girl's mother had recorded a video of the child locked inside, which went viral on social media, but she later deleted it under “pressure” from teachers. Parents have lodged a complaint at the SI office over the matter of locking up a child inside the school.

Confirming the incident, acting headmaster Subrata Biswas said, “It happened due to negligence. The child usually leaves on time, but that day she stayed inside. The teacher might have locked up without noticing her. However, the child was not kept inside for long.” He added, “Her mother came to pick her up. Within about ten minutes the situation was understood and the child was brought out after unlocking the door.” Recently in neighbouring State Odisha, a teacher had locked up a Class II student inside the classroom and left. The girl remained trapped in the school the entire night. In a desperate bid to escape, she tried to squeeze her body out through the iron window grills, but her head got stuck. She was rescued the next day.

India has power of democracy...

►► **From PG 1**

Other automakers too are cutting down on certain non-essential equipment in their vehicles to reduce the usage of rare earth materials as uncertainty over China's green light to export the key materials looms. Despite ongoing supply chain disruptions, policies made by the Indian government in the past decade are proving useful, the PM said. "In 2014, we started working on it, our goal of Make in India and how we can create a conducive environment for global and domestic investors," he said. The land for Maruti Suzuki's plant in Gujarat's Hansalpur was allotted to the company in 2012, when Modi was Chief Minister of the state. "Our efforts from that time are

playing a big role in fulfilling the nation's dreams... Suzuki, a Japanese company, is making its cars in India and exporting them to Japan and to the rest of the world. India has the power of democracy, the advantage of demography and a big pool of skilled workforce, which makes global companies trust India," the PM said.

The PM also urged state governments to step up their reform process and increase ease of doing business to attract investors. "I want states to be proactive, pro development policies and reforms... The faster a state makes its policies neat and clean, with no ifs and buts, it will help investors' confidence... I call on states to compete on reforms and good governance," PM Modi said.

US issues draft notice to impose...

►► **From PG 1**

Economists estimate tariffs could shave 70 to 100 basis points off India's GDP growth this fiscal year, dragging growth below six percent, the weakest pace since the pandemic.

Exporters in textiles, seafood and jewellery are already reporting cancelled US orders and losses to rivals such as Bangladesh and Vietnam, raising fears of heavy job cuts.

A small reprieve: pharmaceuticals and electronics, including iPhones assembled in India, are exempt for now.

S&P estimates exports equivalent to 1.2 percent of India's GDP will be hit, but says it will be a "one-off" shock that "will not derail" the country's long-term growth prospects.

There's no sign yet. In fact, since the US and Russian Presidents met in Alaska, Washington has ramped up criticism of India.

"India acts as a global clearinghouse for Russian oil, converting embargoed crude into high-value exports while giving Moscow the dollars it needs," White House trade adviser Peter Navarro wrote in the Financial Times earlier this month, slamming the country's refiners for "profiteering".

External Affairs Minister S. Jaishankar fired back, arguing India's purchases helped stabilise global oil markets — and were done with Washington's tacit approval in 2022.

He argued that both

the United States and Europe buy refined oil and associated products from India. "If you have a problem buying oil from India, oil or refined products, don't buy it," he said. "Nobody forced you to buy it — but Europe buys, America buys."

Jaishankar said that, until Trump's ultimatum, there had been "no conversations" asking them to stop buying Moscow's oil. Trade trackers at Kpler say India's stance will become clearer only in September, as most August shipments were contracted before Trump's threats. But experts say India is in a tricky situation.

India needs "considerable ingenuity and flexibility" to escape "what appears to be a no-win situation", said Nandan Unnikrishnan of New Delhi-based Observer Research Foundation.

New Delhi has sought to bolster its economy while deepening ties with both BRICS partners and regional rivals.

Jaishankar flew to ally Moscow, producing pledges to ease barriers to bilateral trade, while Prime Minister Narendra Modi is preparing his first visit to China in seven years to repair long-frosty relations.

Domestically, Indian media reports that the government is working on a USD 2.8 billion package for exporters, a six-year programme aimed at easing liquidity concerns.

PM Modi has also proposed tax cuts on everyday goods to spur spending and cushion the economy.

Post-mortem reports now-a-days are appalling: HC judge

MI News Service, Kolkata: Justice Tirthankar Ghosh of Calcutta High Court expressed dissatisfaction with the quality of the postmortem reports reaching the court. The judge aired his view at a programme at the National University of Juridical Sciences (NUJS) in Salt Lake on Sunday.

"When we are asking autopsy surgeons to conduct a repeat post-mortem on the same body, we are getting two different reports. One says there are injuries, the other says there are none. The justifications given by the autopsy surgeons are not satisfactory. The foundational reasons are diametrically opposite. If there are two postmortem reports, it is not the duty of the court to choose which is correct. Then that lays out a third avenue for an interpretation when an investigation outcome is already there. That changes the nature and character of the chargesheet. That is not acceptable in law," Justice Ghosh pointed out.

Another issue he raised was the negative consequences of the

proliferation of the internet concerning cybercrime. "None of the professions were equipped to hedge so far as banking transactions were concerned. And with social networking sites coming in, embarrassing content is being circulated, particularly dealing with the relationships of people of tender age. This may not be acceptable once the relationship is snapped. There is the question of consent. When it is being circulated, it is to the embarrassment of one of the parties who had been in an intimate relationship. My agony is that investigating agencies are unable to stall that circulation," he said.

The judge was attending the inauguration of a two-year post-graduate course on criminology and criminal justice at NUJS. Also in attendance were Justice Sugata Majumdar and Justice Ananya Banerjee, NUJS vice-chancellor Nirmal Kanti Chakrabarti, director-general and inspector-general, cyber crime wing of West Bengal Police, Sanjay Singh and Manoj Kumar Roy, Probation Officer.

115th birth anniversary of Mother Teresa was observed at Mother House in Kolkata on Tuesday.

MCCI organizes session with K C Varshney of SEBI

MI News Service, Kolkata: Merchants' Chamber of Commerce & Industry (MCCI) organised a Special Session with Kamlesh Chandra Varshney, Whole Time Member, Securities and Exchange Board of India (SEBI) on "SEBI's Actions to Improve Practices in the Stock Market" on 26 August 2025 at the Conference Hall of the Chamber. While addressing at the Session, Kamlesh Chandra Varshney stated that capital market leads to growth of economy as company gets to raise money through IPOs. In last year, Rs. 4.3 lakh crore of money was raised through IPO and the amount will be substantial this year too. In last year, SEBI received an average of 16 IPO applications per month and 13 IPOs were processed each month. In July 2025, SEBI processed 21 applications and in August 2025, SEBI has received 35-40 IPOs. He hoped that within 31 August, all applications would be cleared. Varshney advised that SEBI will protect retail investors' interest with optimum regulation. SEBI has taken care of concern about manipulation of large issues. Domestic investors holding has increased from 21.4% in March 2021 to 25.5% in March 2025 while FII holding has fallen from 21.5% to 17.5% in the same period. He also expressed that SEBI is focusing on large manipulators who are doing "pump & dump" of penny stocks.

SEBI and META have come with ad verification process on social media platforms. Only the SEBI registered companies can give advertisements on social media. SEBI will strike down any manipulative advertisement. He urged investors to not download from any bad link. SEBI is doing its best to create a compliance culture and it tries to protect youth from being misguided. SEBI also tries to create a culture of educated investors. Amit Saraogi, President, MCCI in his Welcome Address said that in recent months, SEBI has brought in sweeping changes to the equity derivatives segment. By tightening the rules around contract sizes, standardizing expiry days, enhancing intraday risk monitoring and curbing speculative excesses, SEBI has made this segment far safer and more transparent, especially for retail investors. Abhishek Basu Mallick, Chairman, Council on Capital Market, MCCI in his Theme Address thanked SEBI for ensuring a transparent security market and curbing malpractices. The session was concluded with hearty Vote of Thanks proposed by Vinay Bagri, Co-Chairman, Council on Capital Market, MCCI.

Kamlesh Chandra Varshney, Whole Time Member, Securities and Exchange Board of India (SEBI) addressing at MCCI Special Session on "SEBI's Actions to Improve Practices in the Stock Market" at MCCI in Kolkata.

State govt eases rules for registration renewal, vehicle ownership transfer

MI News Service, Kolkata: The state Transport department has eased rules for transferring ownership and renewing registration of non-transport vehicles, after detecting frequent lapses in compliance and difficulties faced by owners relocating across districts. The move follows reports that many vehicle owners were selling their vehicles to buyers in other districts without completing the mandatory ownership transfer. In many cases, sellers failed to confirm the sale as required under the Motor Vehicles Act, 1988, and the West Bengal Motor Vehicles Rules, 1989, leaving the vehicles still registered in their names. The government also noted that several non-transport vehicles registered with one district's Regional Transport Authority (RTA) were being shifted to other districts, either temporarily or permanently, due to relocation of residence or occupation of the owner. To plug these gaps and improve ease of doing business, the government has now allowed ownership transfer of non-transport vehicles to be recorded.

On Tuesday, Minister Aroop Biswas inaugurated the Ganesh Puja of "Amra Sobai Social Welfare Organization" in ward 113 of Tollygunge Assembly. Borough Chairman Tarkeshwar Chakraborty, local municipal representative Anita Kar Majumder, municipal representative Gopal Roy and former footballer Alok Mukherjee were present at the auspicious occasion.

E-forms for verification of tenants & domestic helps: POLICE

MI News Service, Kolkata: The city police announced online forms for tenant and domestic help verification, urging residents to fill and submit them for better security monitoring of their homes and neighbourhoods.

"Tenant and domestic help verification is not just a procedural formality, but is a crucial crime prevention and community safety measure. Unverified tenants or employees can be exploited by criminal elements, and timely verification significantly reduces risks of offences such as theft, burglary, fraud, and other security concerns," stated a Kolkata Police post on its social media page.

The police released two links to Google Forms on its social media pages and handles.

The post also mentioned that submitting such data was mandatory according to an existing order issued by Kolkata Police commissioner Manoj Verma.

The move comes days after an ayah hired as a caregiver for an octogenarian couple was arrested along with an accomplice for the murder of the elderly woman.

Bijaya Das, 82, and her husband Prasanta Das, 87, lived alone at their New Garia home. Their children are settled in Mumbai and Garia.

KMC to build drainage pumping Stn for Bhowanipore

MI News Service, Kolkata: The Kolkata Municipal Corporation (KMC) will build a drainage pumping station in Bhowanipore's Northern Park, the first for the area, out of funds released by the National Disaster Management Authority and the civic body's own kitty.

A KMC official said that several roads in the area — Justice Dwarakanath Road, Alenby Road, Heysham Road, Lee Road, Elgin Road, Justice Chandramadhab Road and Woodburn Road — are prone to waterlogging. Many of these roads are also listed as waterlogging-prone pockets in KMC's records.

Ashim Bose, the councillor of Ward 70, said waterlogging "has been a problem for decades".

During last Thursday's rain, when several south Kolkata pockets were deluged by more than 100mm of rain in two hours, most of Bhowanipore was underwater for hours, long after the intense rain stopped.

Mayor Firhad Hakim will lay the foundation stone for the drainage pumping station on Thursday. The station will come up in a portion of the children's corner at Northern Park. "The construction will take about a year. The total project cost is ₹43.5 crore. While ₹37 crore will be out of funds released by the National Disaster Management Authority, the rest will be the KMC's funds, with which we have already procured pumps," said a KMC official. Besides the drainage pumping station, about a 4km-long network will be laid as part of the project. The new network will be needed to divert rainwater from the existing network to the new pumping station. The stormwater, the rain in KMC parlance, from the neighbourhood now reaches the Ballygunge Drainage Pumping Station in Park Circus through an underground drainage network. The water is then drained into canals. Once the new pumping station at Northern Park is ready, the rainwater will be drained into Tolly's Nullah. But when it does not rain, the sewage will still reach the Ballygunge Drainage Pumping Station for treatment before being discharged into a canal. According to KMC officials, environmental regulations bar the release of sewage directly into a canal or river during non-rainy days. It can harm aquatic flora and fauna. When it rains, the harmful effects of the sewage get diluted, and the combination of sewage and rainwater can be directly discharged into a canal or a river.

Topsia Violence: Police arrest TMC leader & his father

MI News Service, Kolkata: A Trinamool Congress leader and his father were arrested in connection with violence reported in Topsia's Darapara around a month ago.

Police said Trinamool Congress ward president Tabrez Alam and his father, a former TMC ward president, were arrested for their alleged involvement in the clash.

Sources said there was a clash between two groups where bricks and bombs were hurled.

People had reported multiple explosions in the locality. A few people in the neighbourhood were injured. Several persons have already been arrested in this case.

During the investigation, the police had come across the names of Alam and his father.

According to sources, a faction feud between two groups of Trinamool Congress activists resulted in the violent clash.

The councillor of ward 59, Jolly Bose, said she was not sure if Alam was holding any post in the party. "I am not sure if he is holding any post (in the party). I am very unwell. I cannot speak much," she said before disconnecting the call on Monday evening.

A senior TMC leader said on Monday: "Law should take its own course."

The duo has been arrested for alleged assault, arson, and property damage.

The police said they were looking for others who were also suspected of being part of the violence.

Almost a month ago, a clash broke out in ward number 59 at Darapara in which several persons were injured and had to be admitted to the hospital.

High Court seeks report on lawyer assault

MI News Service, Kolkata: The high court sought a report from the detective department of Bidhannagar police in connection with an assault allegedly by a policeman on a lawyer and his son in Salt Lake's AA Block.

Justice Tirthankar Ghosh issued the order after the lawyer appearing for the police said that the detective department had been entrusted with the probe.

"Why then is Bidhannagar East police station placing the report?" the judge said after receiving the preliminary report during the day.

Justice Ghosh asked the detective department to file a report instead.

The case has been fixed for hearing on Friday. Advocate Manujendra Narayan Roy was allegedly beaten up by an officer of Bidhannagar city police following a dispute over parking on Wednesday.

His son, Sourindra Narayan, was allegedly heckled and harassed by the officer, who allegedly did not introduce himself as a cop before asking Sourindra details about his whereabouts.

Following the incident, lawyers of the high court decided not to attend the court last Friday, seeking immediate action against the accused police officer.

ECor Hosts Awareness Program on POSH Act Compliance

MI News Service, Kolkata: With a commitment to strict compliance with the POSH Act (Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013) and to foster a safe working environment free from any form of sexual harassment, East Coast Railway organized a sensitization program at the Coaching Depot in Bhubaneswar. The program featured an informative and engaging workshop focused on addressing workplace harassment. M/s Kanta Mohanty, a seasoned management professional and motivational speaker with over 18 years of experience across education, health-care, and corporate sectors, delivered an extensive talk on the importance of creating a safe and respectful workplace for women. She emphasized the key provisions of the POSH Act 2013, including the establishment of Internal Complaints Committees (ICCs) and Local Complaints Committees (LCCs) to address complaints, as well as the employer's responsibilities for prevention, prohibition, redressal, and the legal processes involved in handling sexual harassment cases. The frontline staff of the Coaching Depot, Bhubaneswar, along with other employees from the Khurda Road division, actively participated in the program. Present at the sensitization session were Smt. Sagarika Pattanaik, Chief Personnel Officer and other officers including Shri Suresh Behera and Shri Niles K Kumar. Executive members of Khurda Road division's Internal Complaints Committee Shri P.K. Behera, and Smt. Tapaswini Mahanandia were also present. This program marks a significant step in East Coast Railway's ongoing efforts to lead in creating a safe, inclusive, and harassment-free workplace for all its employees.

ECor: Blood Donation Camp a Success

MI News Service, Bhubaneswar: A well-attended blood donation camp was held today at East Coast Railway Central Hospital, Bhubaneswar, in collaboration with the Rotary Club. Thanks to the dedication of 43 donors, volunteers, and medical professionals, the event proved to be a life-saving initiative for the community. The dedication and generosity of all participants have contributed significantly to supporting those in need, highlighting the difference collective action can make in the community. The camp was inaugurated by Dr. Satish Pradhan, Medical Director of Central Hospital, with several senior officials in attendance. Members of the Rotary Club of Bhubaneswar actively participated and helped make the drive a success.

Howrah Division Empowers Women through Yoga and Wellness Workshop

MI News Service, Kolkata: As part of its ongoing welfare initiatives, Howrah Division successfully organised a special workshop on "Yoga for Women's Health and Wellness" on 25th August, 2025, at Rivera. The programme received enthusiastic participation from 93 lady employees of the Division. The session was conducted by Smt. Mona Jain Singh, a renowned Yoga and Wellness Coach, who guided the participants through effective yoga practices and relaxation techniques aimed at enhancing physical health, mental balance, and overall well-being. Members of the Eastern Railway Women's Welfare Organisation (ERWWO) were also present and actively participated, further strengthening the spirit of togetherness and support for women employees. The initiative not only promoted health and wellness but also reflected Howrah Division's commitment to employee welfare, empowering women with tools to manage stress, achieve balance, and embrace a healthier lifestyle.

Howrah Division Ensures Stations Plastic-Free under Swachhta Abhiyan

MI News Service, Howrah: As part of the ongoing Swachhta Abhiyan, Howrah Division of Eastern Railway has intensified its commitment to environmental protection and sustainable practices. On 26th August 2025, the division ensured strict prohibition of plastic use across its premises, achieving a significant step towards creating a plastic-free environment. This initiative was carried out across the division, notably at major stations including Kamarkundu, Bolpur, Rampurhat, Bandel, Bardhaman, and Azimganj, where comprehensive measures were taken to eliminate the use of plastic materials. Intensive awareness campaigns were conducted among passengers, vendors, and railway staff, highlighting the harmful effects of single-use plastics and encouraging adoption of eco-friendly alternatives. Through dedicated monitoring and active participation, Howrah Division successfully maintained station premises free from plastic pollution. This effort reflects the division's strong commitment to cleaner, greener, and more sustainable railway services. Howrah Division continues to take proactive steps under the Swachhta Abhiyan, setting a positive example in environmental responsibility and contributing to the vision of Indian Railways for a pollution-free ecosystem.

Metro Extends QR Ticketing System across all lines

From today onwards both paper and mobile QR tickets have been introduced in the entire Metro Railway Kolkata network. Earlier it was only available for Green Line, Blue Line and Orange Line .Same facility has been extended to Purple and Yellow Lines also from today . Now mobile QR tickets can be booked through Aamar Kolkata Metro app for the stations of these lines in addition to paper QR tickets. Yesterday 23482 passengers booked mobile QR tickets using the Metro app which has been almost double than previous Monday which was 11787. Passengers may save valuable time and money by buying tickets through Aamar Kolkata Metro App before reaching Metro station to avoid rush and can avail 5 % discount in fare for each ticket booked through this app. Frequent announcements have been made at metro stations to purchase tickets through this app so as to managing crowd on account of surge of passengers after opening new lines recently.

BANDHAN LIFE launches 'Advance Income Feature'

MI News Service, Kolkata: Bandhan Life Insurance has further strengthened its popular Guaranteed Income Plan by introducing an innovative Advance Income feature. It is aimed at providing customers with faster access to their secured payouts. With this feature, policyholders can now choose to receive their guaranteed income at the start of their chosen payout frequency. This can be monthly, quarterly, half-yearly or annually, offering greater flexibility and immediate liquidity to meet their evolving financial needs. For instance, if you choose the Advance Income feature for a monthly payout frequency, you will get your payout at the beginning of every month. This feature will help you supplement your income. You can use it the way you want. You can save it or re-invest it; it is up to you.

This new feature is particularly beneficial for individuals who require timely funds for regular expenses. It helps in managing EMIs, paying children's education fees, covering regular medical costs, and meeting household needs. By receiving income at the beginning of each payout cycle, customers

gain quicker access to cash flow. This reduces the stress of meeting short-term financial obligations. At the same time, they continue to enjoy the core benefits of the plan. Commenting on the feature, Maneesh Mishra, Chief Product and Marketing Officer, Bandhan Life Insurance, said, "Our customers' evolving needs inspire us to keep innovating. The Advance Income feature strengthens our Guaranteed Income Plan by providing immediate money for planned expenses. At a time when education costs in India are rising by 8-10% annually and medical expenses are increasing by over 10%, this feature ensures that our customers have greater control over their finances."

The Advance Income option complements the Guaranteed Income Plan's existing offerings. These include life insurance protection, assured regular payouts, tax benefits, and return of premiums (based on the chosen plan option). It also offers customizable policy and income terms that can be aligned to customers' financial goals.

With Bandhan Life Guaranteed Income Plan now enhanced

with this feature, Bandhan Life ensures that customers can balance both immediate financial requirements and long-term wealth-building goals without compromise. It is an ideal solution for those seeking stability and protection.

Atmanirbhar Bharat: Def Secy launches "GAINS 2025"

MI News Service, New Delhi /Kolkata: Buoyed by the energy and enthusiasm generated in the first two editions of its initiative to promote development of technology in the field of shipbuilding, Garden Reach Shipbuilders and Engineers (GRSE) Ltd, launched the third edition of GRSE Accelerated Innovation Nurturing Scheme (GAINS) in Kolkata recently. 'GAINS 2025' was launched by the Defence Secretary of India, Rajesh Kumar Singh, IAS.

Key dignitaries who were present on the occasion were Cmde PR Hari, IN (Retd), Chairman and Managing Director, GRSE, Cdr Shantanu Bose, IN (Retd.), Director (Shipbuilding), GRSE, Capt (IN) P Sunilkumar (Retd.), Director (Corporate Planning & Personnel), GRSE, Abhishek Ranjan, IOFS, Chief Vigilance Officer,

GRSE along with other Senior Officers of GRSE. 'GAINS' is a unique National open challenge to encourage and enable MSMEs and Start-Ups to develop innovative solutions that GRSE may incorporate for further technological advancement. This initiative is in keeping with the 'Make in India' and 'Start-up India' policies of the Government of India. The aim is to leverage the vast

eco-system of MSMEs and Start-Ups to address present and emerging challenges in the ship design and construction industry, while achieving the objectives of 'Atmanirbharta'.

In his address, Rajesh Kumar Singh, IAS, Defence Secretary, Govt. of India, said, "I have been informed that two editions of the GAINS Open Challenge have been launched to date, and the response from the innovator community has been

Epiroc breaks ground on new pro-duction and R&D facility in India

RANCHI : Epiroc AB, a leading productivity and sustainability partner for the mining and infrastructure industries, today broke ground on a new production and R&D facility in Nashik, India. The new facility is part of Epiroc's commitment to support customers in India and globally with top-quality products and solutions that strengthen safety and productivity.

The new site will develop, innovate and produce underground and surface equipment for mining and construction customers. The facility will include buildings for production and prototyping, an R&D lab, offices, and an outdoor equipment test track. It is expected to start operations in the third quarter 2026, with phased developments in coming years. The facility will total around 175 000 m2.

"The new facility in Nashik is a key step in further expanding our presence in the growing and very important Indian market, and it will also support our customers globally," says Helena Hedblom, Epiroc's President and CEO.

Epiroc has production and innovation facilities in several Indian locations, including Nashik, and has around 1 750 employees in the country, including a large and growing R&D organization. In April this year, Epiroc inaugurated an expanded manufacturing facility for rock drilling tools in Hyderabad, and last year it opened a new innovation and technology center in the same city. The new site in Nashik will create local employment opportunities, adding approximately 200 new direct positions to Epiroc's current workforce of around 280 in Nashik.

"We are excited about this further expansion in India, where we see significant growth potential," says Arunkumar Govindarajan, President Epiroc India. "We look forward to continuing to be the productivity and sustainability partner for our local and global customers through this investment. The new facility also supports our 'Make in India' initiatives."

Curtain-Raiser for EAST TECH 2025 held in Ranchi

RANCHI: The Curtain-Raiser for EAST TECH 2025 was successfully held in Ranchi today, marking a significant step towards the upcoming premier defence technology exhibition scheduled from 19-21 September 2025 at the Khelgaon Sports Complex, Ranchi.

The event was graced by the Hon'ble Raksha Rajya Mantri, Shri Sanjay Seth, who formally announced the commencement of EAST TECH 2025 preparations. In his address, Shri Seth elaborated on the importance and nuances of the event's conduct, highlighting its role in fostering operational capability enhancement, industry engagement, and technological innovation in line with the vision of Aatmanirbharta in Defence. He emphasised that such initiatives not only strengthen national security but also accelerate regional industrial development and innovation ecosystems.

The Society of Indian Defence Manufacturers (SIDM) representative, in his remarks, stressed the critical role of industry participation in achieving the Indian Army's vision of self-reliance. He called upon MSMEs, start-ups, and established defence firms to leverage this opportunity to align their innovations with the Army's operational needs, thereby building a stronger, indigenous defence manufacturing base.

A key highlight of the event was the unveiling of the EAST TECH 2025 logo, symbolising force, vision, and commitment. The logo embodies the event's central theme "Aatmanirbharta se Samprabhuta" a call to strengthen India's sovereignty through technological self-reliance in defence. "Aatmanirbharta se Samprabhuta" reflects the belief that true sovereignty comes from within - when a nation's defence forces are equipped with home-grown technologies, designed and built by its own industry. Self-reliance empowers security, boosts innovation, and ensures strategic independence, making sovereignty not just a right, but a capability.

With over 200 expected participants from across the defence manufacturing spectrum, EAST TECH 2025 promises to be a transformative platform, bringing together the operational needs of the Army and the innovative capabilities of Indian industry.

India aims to double the number of airports to 350 by 2047: Civil Aviation Minister

BHUBANESWAR : Union Civil Aviation Minister Ram Mohan Naidu Kinjarapu on Monday said the central government aims to build 350 airports across the country by the year 2047, as part of its long-term vision for a "Viksit Bharat".

Speaking to the media on the sidelines of the Eastern Region Ministers' Conference on Civil Aviation, the Minister said India currently has 162 airports, and the government intends to more than double the number over the next two decades.

"To achieve the target of 2047 Viksit Bharat, aviation is a very important sector. We are seeing that the biggest growth sector in the country is civil aviation. Nobody is growing like India is growing in civil aviation," Kinjarapu said.

"We want to strengthen the states in civil aviation. In the coming days, we will give complete support to the states. Our aim is to build 350 airports by the year 2047."

The conference aimed to support and guide Eastern Indian states in expanding their aviation footprint.

The Minister highlighted the recent expansion in the sector.

"In the last 11 years, we saw 88 new airports being built not only in the big cities, but also in tier two and tier three cities of the country," Kinjarapu announced new infrastructure projects in Odisha, including a new terminal building of the Bhubaneswar airport and an "in-principle approval" for an airport in Puri.

"After construction starts for the Puri airport, it will take two years for it to be completed. The state government is very excited to move into the construction of that airport. So, we will support that also," the minister said.

The Minister said there are 11 airstrips in Odisha, which, according to him, can be converted to airports. He added, "We will also provide support in building up FTOs (Flight Training Organisations) for bringing new pilots."

On expanding connectivity beyond airports, Kinjarapu said seaplane operations have not yet reached their full potential.

"We have streamlined some of the rules and guidelines. In October, we expect two seaplanes to arrive in the country, and we plan to initiate operations in the Andaman and Nicobar Islands, Kerala, and Andhra Pradesh."

He also emphasised the government's focus on developing heliports in regions where airports are not viable.

"Wherever airports can't be built, we want to start heliports there. In hilly regions and the Northeast region, we want to have at least one heliport in every district."

On the AI171 plane crash in Ahmedabad, the Minister said, "The investigation is ongoing. There are multiple angles that need to be looked at. AAIB have done a thorough job, with a lot of commitment and accountability, and they have also produced a report. It will take 4-5 months more for the final report to be out."

LPG losses of oil companies narrows 35% QoQ in Q1FY26: Report

NEW DELHI : The LPG under-recovery for Oil Marketing Companies (OMCs) witnessed a sharp decline in the first quarter of FY26, narrowing by nearly 35 per cent quarter-on-quarter, according to a report by Care Edge Ratings.

The report highlighted that this reduction came mainly due to the price hike announced in April 2025, where LPG prices were raised by Rs 50 per 14.2 kg cylinder, along with some moderation in sourcing costs.

The report stated "LPG under-recovery of Oil Marketing Companies (OMCs) for the first quarter of FY26 witnessed a sharp reduction of approx. 35 per cent q-o-q".

LPG under-recovery refers to the financial loss that Oil Marketing Companies (OMCs) in India incur when the cost of importing or sourcing Liquefied Petroleum Gas (LPG) is higher than the retail price at which it is sold to consumers.

Despite the improvement, OMCs still faced a significant financial burden. In Q1FY26, LPG under-recoveries stood at approximately Rs 7,940 crore, lower than Rs 12,110 crore recorded in Q4FY25.

The gap, however, continues to persist due to the difference between the cost of sourcing LPG and its revised retail price.

As a result, the cumulative LPG under-recovery of OMCs reached around Rs 49,210 crore by June 30, 2025, compared to Rs 41,270 crore as of March 31, 2025.

This reflects that while the quarterly losses narrowed, the overall under-recovery continued to mount due to sustained mismatches between input costs and retail realizations.

In response to this growing challenge, the Union Cabinet recently approved a large compensation package of Rs 30,000 crore for the OMCs. This amount will be disbursed in twelve instalments to help offset the financial pressure.

Additionally, in April 2025, the Government of India raised the excise duty on fuel sales by Rs 2 per litre, which will now be passed on to OMCs as part of the compensation mechanism for LPG under-recoveries. The report further noted that while this compensation package will address a substantial part of the past under-recoveries, the pace of fresh accumulation is expected to slow down in the coming quarters, supported by favourable trends in global procurement prices.

It also highlighted that though LPG under-recoveries continue to put stress on OMC profitability, strong marketing margins from petrol and diesel sales have provided some cushion, partially balancing the financial impact.

Overall, the report concluded that a combination of government support through compensation, rangebound crude oil prices, stable domestic retail fuel prices, and potentially lower LPG sourcing costs paints a relatively positive outlook for the OMCs going forward.

This easing of LPG under-recoveries, coupled with policy support, is expected to provide much-needed relief to the companies while ensuring energy supplies remain stable for consumers.

excise duty on fuel sales by Rs 2 per litre, which will now be passed on to OMCs as part of the compensation mechanism for LPG under-recoveries. The report further noted that while this compensation package will address a substantial part of the past under-recoveries, the pace of fresh accumulation is expected to slow down in the coming quarters, supported by favourable trends in global procurement prices.

It also highlighted that though LPG under-recoveries continue to put stress on OMC profitability, strong marketing margins from petrol and diesel sales have provided some cushion, partially balancing the financial impact.

ONGC begins gas monetisation from Chinnewala Tibba field in Rajasthan

NEW DELHI : Oil and Natural Gas Corporation Limited (ONGC) has officially commenced sales of natural gas from its Chinnewala Tibba field, a Discovered Small Field (DSF-II) block located in the Rajasthan Kutch Onland Exploratory Asset (RKOE).

According to a statement from the state-owned company, this significant milestone reinforces ONGC's commitment to enhancing domestic energy production and strengthening India's energy security under the guidance of the Ministry of Petroleum and Natural Gas (MoP&NG).

Located in Western Rajasthan, close to the Indo-Pak international border, the Chinnewala Tibba block covers an area of 73 sq. km and holds promising gas reserves.

ONGC said it has commenced sales of 1.0 lakh standard cubic meters of gas per day (LSCMD), thereby contributing to the region's growing energy requirements.

Gas evacuation to Rajasthan Rajya Vidyut Utpadan Nigam Limited (RRVUNL), Ramgarh, began on August 25, 2025, through ONGC's Gamnewala Gas Collection Station (GCS).

"This accomplishment was enabled by the close collaboration between ONGC, Directorate General of Hydrocarbons (DGH), GAIL, Oil India Limited (OIL), and RRVUNL, ensuring smooth integration of gas supplies into the regional power grid," ONGC said.

EaseMyTrip founder Prashant Pitti says he gained 5.7 years of life; credits Ayurveda, HIRT, discipline

NEW DELHI : EaseMyTrip founder and chairman Prashant Pitti has opened up about his fitness journey, revealing that he has managed to reverse his biological age by 5.7 years through a combination of Ayurveda, HIRT weight training, and strict discipline. At 42, Pitti says he now feels and functions like a 32-year-old and hopes to continue maintaining this lifestyle.

Taking to his official Instagram handle, Pitti shared details of his 15-month-long transformation, saying that he has built his own framework after extensive research and self-experimentation.

"At age 42, I want to be 32 years old," he wrote, adding, "Why do we need Bryan Johnson-level bio-hacking when our country already has centuries of wisdom in Ayurveda?"

Pitti explained that his fitness journey is a mix of traditional knowledge and modern techniques. After reading books on Ayurveda and weightlifting, he designed his own plan to stay consistent and healthy. Over the last 15 months, he focused on a carefully blended combination of 32 herbal extracts that, according to him, help reduce inflammation, boost testosterone, and improve strength and cognitive functions.

Alongside this, he detailed that he adopted HIRT weight lifting, working out for 40 minutes across 18 sets with just a 15-second break between each set.

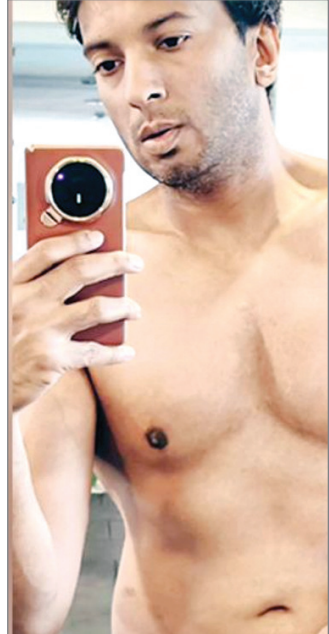

Diet has been another key factor in his transformation. Pitti tracks his daily intake of 2,000 calories and 125 grams of protein. Remarkably, he says he managed to achieve all of this without hiring a trainer or relying on shortcuts, instead choosing self-education, experimentation, and discipline to guide his journey.

The results, according to Pitti, "I lost 21 kg of fat, gained 4 kg of muscles, and my WHOOP biological age is already 5.7 years younger than my real age."

"By next year, at 42, I want to live with the energy and biology of 32," he added.

However, Pitti admitted that his journey hasn't been without challenges. Sleep, he said, continues to be his biggest hurdle.

"My biggest hurdle is quantity and quality sleep. I've tried magnesium, chamomile, eye masks, THC, melatonin -- nothing works consistently. Still searching. Perils of being a serial entrepreneur, I guess," he confessed.

75 per cent attendance must be made mandatory for schools: UP Governor

LUCKNOW/GORAKHPUR : Uttar Pradesh Governor Anandiben Patel on Monday laid emphasis on research work and also said that 75 per cent attendance should be made compulsory for students. Addressing the 44th convocation of Deen Dayal Upadhyay Gorakhpur University at Baba Gambhirnath Auditorium, Patel stressed on the importance of research, saying that identifying problems prevalent in the society, studying them and taking the solutions forward is the need of the hour. The government gives grants for research, this should be used in projects that caters to societal welfare. After completion of the research work, it should be sent to officials concerned, so that effective action can be taken on it, Patel said. The UP governor added that "minimum 75 per cent attendance should be made compulsory for students in colleges, schools and universities." Parents work hard to educate their children, so they should regularly listen to lectures in class, use laboratories and libraries, and strive to progress in studies, she said. Patel, who is also the Chancellor of all the state universities, said that activities of the university.

People carry an idol of Lord Ganesh on the eve of 'Ganesh Chaturthi' festival, in Shimla.

Ganpati special trains will make more than 380 trips on Ganeshotsav for the convenience of passengers

- In the year 2023, the Railways operated 305 Ganpati special train trips,while in 2024 this number was increased to 358.
- Ganpati special trains have been started by the Railways from 11 August.Detailed information is available on IRCTC website, RailOne app and computerized PRS.

MI News Service, New Delhi: In view of Ganesh Utsav, Indian Railways has made special arrangements for the devotees. Railways has decided to operate more than 380 trips of Ganpati special trains this year for the convenience of devotees. This is a new record of trips of special trains during Ganpati festival. Earlier in the year 2023 and 2024 also, the Railways not only operated special trains for the convenience of the passengers, but also increased the number of their trips. In the year 2023, the Railways operated 305 Ganpati special train trips, while in 2024 this number was increased to 358. According to the special trains operated zone-wise for the convenience of the passengers, keeping in view the passenger demand in Maharashtra and Konkan region, 296 trips of special trains will be run in Central Railway. At the same time, 56 trips

are included in Western Railway, 06 trips in Konkan Railway and 22 trips in South Western Railway. The stops for Ganpati special trains running on Konkan Railway are Kolad, Indapur, Mangaon, Goregaon Road, Veer, Sape Varmane, Karanjadi, Vinhere, Diwankhavati, Kalambani Budruk, Khed, Anjani, Chiplun, Kamathe, Sawarda, Aravalli Road, Sangameshwar Road, Ratnagiri, Adavali, Vilavade, Rajapur Road, Vaibhavwadi Road, Nandgaon Road, Kankavli, Sindhudurg, Kudal, Jarap, Sawantwadi Road, Madure, Thivim, Karmali, Madgaon Junction, Karwar, Gokarna Road, Kumta, Murdeshwar, Mookambika Road, Kundapura, Udipi, Mulki and Surathkal. On the Western Railway routes, trains will stop at Borivali, Vasai Road, Bhiwandi Road, Panvel, Pen, Roha, Mangaon, Veer, Khed, Chiplun, Sangameshwar Road,

Ratnagiri, Rajapur Road, Vaibhavwadi Road, Kankavli, Sindhudurg, Kudal, Savantwadi Road, Thivim, Karmali, Madgaon Junction, Karwar, Gokarna Road, Kumta, Murdeshwar, Mookambika Road, Byndoor, Kundapura. In Central Railway, Ganpati special trains have been given stoppage at Dadar, Thane, Panvel, Pen, Roha, Mangaon, Veer, Khed, Chiplun, Kamathe, Sawarda, Aravali Road, Sangameshwar Road, Ratnagiri, Adavali, Vilavade, Rajapur Road, Vaibhavwadi Road, Nandgaon Road, Kankavli, Sindhudurg, Kudal and Jarap stations. Similarly, Ganpati special trains of South Western Railway will stop at SMM Haveri, Harihar, Davanagere, Birur, Arsikere, Tumkur, Yeshwantpur, Kunigal, Channarayana, Hassan, Sakleshpur, Subrahmanya Road, Kabakaputtur and Bantawala stations.

On 25.08.2025, under "Operation Amanat", RPF officials of Howrah and Sealdah Divisions of Eastern Railway recovered 03 mobile phones, 01 mobile charger, 02 fans, 02 wallets, and 04 bags containing laptop, clothes, mobile charger, documents, foreign currency, cosmetic items, miscellaneous articles, and cash of Rs. 3,030/-, all valued at Rs. 1,05,900/-, from different trains and railway premises at Howrah, Bamangachi, Barrackpore, Sealdah, and Coaching Sealdah Railway Stations. The recovered items were handed over to their rightful owners after due verification and proper documentation.

Iran vows reciprocal action after Aus expels ambassador

MI News Service, Tehran: Iran has promised reciprocal action following Australia's decision to expel its ambassador in Canberra over accusations that Tehran was behind anti-Jewish attacks in the country. Iran's Foreign Ministry spokesman Esmail Baghaei "absolutely rejected" Australia's accusations, saying "any inappropriate and unjustified action on a diplomatic level will have a reciprocal reaction". Baghaei also said the measures appeared to be "influenced by internal developments" in Australia, including weekend protests across the country against Israel's war on Gaza, which organisers said were the largest pro-Palestine demonstrations in Australia's history. "It seems that this action is taken in order to compensate for the limited criticism the Australian side has directed at the Zionist regime [Israel]," he added. Earlier on Tuesday, Australia's Prime Minister Anthony Albanese said Iran was behind the torching of a kosher cafe in Sydney last October and directed a major arson attack on a synagogue in Melbourne in December. There were no casualties in either of the attacks where assailants set fire to the properties.

Restoration of stoppages over South Eastern Railway

MI News Service, Kolkata: It has been decided by the stoppages of the following trains will be restored with effect from dates mentioned against each:
